

MOVE N Software, Inc.

August 2022

Introduction

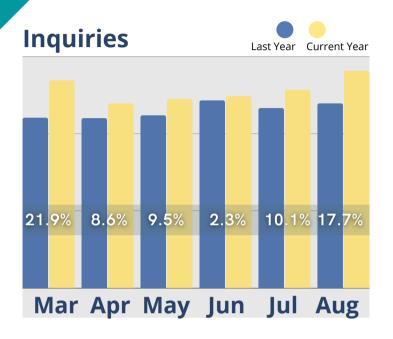

For over 25 years, Move-N Software has been focused on creating exceptional software exclusively for the Senior Housing industry, designed to increase census and revenues, and enhance resident care. As the industry has changed and technology has advanced, so has Move-N. Our goal is to give our customers more than they expect. During this COVID-19 crisis, as a service to the industry, we have been providing monthly statistics based on data aggregated from our small, mid-sized and large customers across the US and Canada, so that you may get a sense for the pandemic influence on the overall industry.

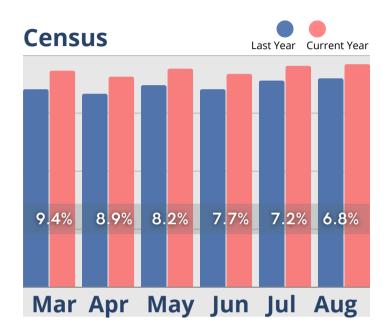

The information provided in this update consists of month to month, year to date data comparing the last six months of the previous and current year, as of August 31st.

August Analysis

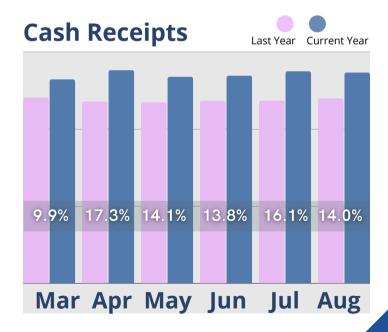

August was a good month for Senior Housing. Lead volume and tour activity both improved, reporting their best numbers since March. The number of days to convert tours to move-ins dropped significantly from the July six month high of 92 days to only 64 days in August, and census continued to remain stable when compared to the previous six months of 2022. Cash receipts also held steady, along with room revenues, residents with assessments and assessment revenues, while service fees in August were at their highest level for the year. Monthly fee revenue was comparable with June and July but has not yet regained the same levels reported in March through May. Marketing activity in August was the highest in the last six months for both month over month and year over year reporting periods. Inquiry activity also showed slight improvements when compared to the same time last year, and the highest level of activity in the last six months of 2022.

Giving our customers more than they expect.
